

I am writing to request to keep K-LOVE on their present FM translator system. K-LOVE is a vital part of my family's radio listening. There is so little choice in our local community. Without K-LOVE our community would be UNDER served for this type of broadcasting. I believe it is in the public interest to keep K-LOVE at their present FM translator system. We can pick them up on 104.3, 96.9 and 102.3. K-LOVE supports wholesome values and has a positive and encouraging impact on communities across America. Without them we would not have the same family-friendly programming we now have with K-LOVE.
